

Purpose, Objectives, and Disclosure(s)

Title:	
2019 Michigan Child Death Review Annual Team Member Training	
Purpose:	
The training is designed for all members of a CDR team. The training will provide the team member with current best practice of conducting a review. Learners will hear from experts in various fields pertaining to specific causes of child deaths and the role of each in responding to child deaths. CDR program staff and experienced local review team members will present information regarding the history of CDR in Michigan, examples of prevention initiatives that have come out of the CDR process, and how to run an effective CDR meeting. All sessions are plenary style, and most consist of PowerPoint presentations with verbal accompaniment. Two sessions use videos, and one is an interactive session, where a mock review takes place by incorporating role play.	
Learning Outcome:	
The volunteer team member should have knowledge of how to participate in the confidential reviews of children's deaths, knowledge of the history of CDR in Michigan, knowledge of CDR on the national front, knowledge and skills on how to run an effective meeting, and knowledge and skills in conducting death reviews.	
Session Objectives:	
<p>Session #: 1 Session Title: Introduction to Child Death Review (CDR), Citizen Review Panel (CRP), and Sudden Unexpected Infant Death (SUID) Presenter(s): Nicole DeWitt Objective 1: Describe the Michigan Child Death Review Program, SUID Case Registry, and CRP. Objective 2: Identify the difference between the local and state CDR teams. Objective 3: Discuss the number of reviews completed each year. Objective 4: Describe the statute that covers the CDR process and confidentiality.</p>	<p>Session #: 2 Session Title: Overview of CDR Team Member Expectations Presenter(s): Heidi Hilliard Objective 1: Describe the Child Death Review (CDR) process and how to run an effective meeting. Objective 2: Identify the roles of the different professional disciplines when a child dies. Objective 3: Explain how CDR data is collected and used to drive policy. Objective 4: Identify tools and resources to implement injury prevention initiatives in local communities.</p>
<p>Session #: 3 Session Title: EMS Responds to a 911 Call Presenter(s): Rick Dupon Objective 1: Identify the optimal actions in response to a child's death. Objective 2: Define the role of EMS in responding to a child's death. Objective 3: Identify the roles different responding agencies can and should play, individually and collectively. Objective 4: Discuss the importance of the contribution that EMS personnel can have in the CDR process.</p>	<p>Session #: 4 Session Title: The Role of CPS in a Child's Death Presenter(s): Colin Parks Objective 1: Define the responsibilities that DHS has in investigating a child's death. Objective 2: Describe what it means to be a mandated reporter, who is responsible for making a report and the consequences of not doing so. Objective 3: Identify the policies in place for substantiating abuse and neglect. Objective 4: Discuss how a DHS team member interacts with CPS staff.</p>

Purpose, Objectives, and Disclosure(s)

<p>Session #: 5 Session Title: The Role of the Medical Examiner Presenter(s): Dr. Carl Schmidt Objective 1: Describe the history of the evolution of the ME system, globally and in Michigan. Objective 2: Identify roles various agencies can play individually and collectively in a coordinated scene investigation, including medical examiners, first responders, law enforcement officers, public health, prosecutors and social services. Objective 3: Identify all of the procedures necessary to accurately determine cause and manner of death. Objective 4: Explain how a complete post mortem exam helps to determine cause of death. Objective 5: Identify the importance of the contribution that MEs have in the CDR process.</p>	<p>Session #: 6 Session Title: The Role of Law Enforcement: Death Scene Investigation Presenter(s): Det Amy Hicok (Ret) Objective 1: Identify the various components of a thorough child death scene investigation. Objective 2: Describe how scene investigation is crucial to differentiate causes of death (SIDS vs suffocation, accidental injury vs abuse, etc) Objective 3: Define the duties and responsibilities that law enforcement agencies have in investigating a child's death. Objective 4: Identify ways in which agencies should be working together for a more coordinated response. Objective 5: Demonstrate the important contribution that law enforcement personnel have in the process.</p>
<p>Session #: 7 Session Title: The Legal System's Response to a Child's Death Presenter(s): Lora Weingarden Objective 1: Provide definitions to the legal terms used in describing child fatalities. Objective 2: Describe relevant Michigan laws. Objective 3: Define the roles of the courts, including probate and criminal courts, in child fatalities. Objective 4: Define how a prosecutor builds a case and how a thorough investigation leads to better prosecutions in cases of intentional child deaths. Objective 5: Identify the importance of the contribution that Prosecutors have in the CDR process.</p>	<p>Session #: 8 Session Title: Effective CDR Meetings: Mock Review Presenter(s): County Review Team Objective 1: Describe the characteristics of a high quality review. Objective 2: Identify the types of information shared by various team members at a review. Objective 3: Discuss the value of a multi-disciplinary discussion and team problem solving in understanding child fatalities. Objective 4: Identify the importance of asking questions about the investigation, services provided to the family before and after the death. Objective 5: Describe what can be done to improve response at the local level. Objective 6: Discuss potential problems and solutions in conducting local reviews and how to address these problems at the county level.</p>
<p>Session #: 9 Session Title: Medically Fragile Deaths Presenter(s): Dr. Debra Simms Objective 1: Describe the epidemiology of medical deaths. Objective 2: Identify the causes of deaths of children with chronic medical conditions. Objective 3: Describe the risk factors that can contribute to natural child deaths. Objective 4: Discuss how to conduct effective reviews of natural child deaths, with a special emphasis on risk factor identification.</p>	<p>Session #: 10 Session Title: Child Abuse and Neglect Deaths Presenter(s): Dr. Debra Simms Objective 1: Define the injuries from child abuse and neglect which can lead to death, especially abdominal injuries, head injuries, failure to thrive, medical neglect and Munchausen's Syndrome by Proxy. Objective 2: Describe how a diagnosis of child maltreatment is made. Objective 3: Describe the risk factors associated with abuse and neglect deaths. Objective 4: Discuss associated prevention strategies for communities.</p>

Purpose, Objectives, and Disclosure(s)

<p>Session #: 11 Session Title: Abusive Head Trauma (Shaken Baby Syndrome) Video Presenter(s): Dr. Carl Schmidt Objective 1: Describe the physical parameters of SBS. Objective 2: Identify the clinical and autopsy findings that support an SBS diagnosis.</p>	<p>Session #: 12 Session Title: Youth Suicide/Risk Taking Behaviors Presenter(s): Seth Persky, Ellen Pare Objective 1: List two ways that suicide death review can contribute to suicide prevention. Objective 2: List three ways that professionals can support a suicidal youth. Objective 3: Describe the prevalence of suicidality in our state's youth.</p>
<p>Session #: 13 Session Title: Reviewing Perinatal Deaths Presenter(s): Sandy Nicolas, Sharon VanDam Objective 1: Describe the impact of perinatal deaths on the overall infant/child mortality rate for Michigan. Objective 2: Identify risk factors contributing to infant deaths due to conditions originating in the perinatal period. Objective 3: Explain how to conduct more effective reviews of perinatal deaths, with a special emphasis on risk factor identification.</p>	<p>Session #: 14 Session Title: SIDS and Sudden Unexpected Infant Deaths Presenter(s): Dr. Carl Schmidt Objective 1: Define what Sudden Infant Death Syndrome and Sudden Unexplained Infant Death are and are not. Objective 2: Discuss how diagnosis is made. Objective 3: Describe the problems associated with the reporting and surveillance of SIDS/SUID and related controversies. Objective 4: Define the risk factors associated with SIDS/SUID deaths. Objective 5: Identify current research initiatives to determine etiology.</p>
<p>Session #: 15 Session Title: Best Practices in Death Scene Reenactments Presenter(s): Patricia Tackitt Objective 1: Identify the components of a thorough child death investigation. Objective 2: Explain why child death investigation and re-enactments are critical in differentiating the various causes of SUIDs. Objective 3: Demonstrate how to document what the family showed by digital photography or video. Objective 4: Discuss the importance of providing the Medical Examiner with a copy of the death scene investigation, scene/re-enactment photos, in determination of cause and manner of death.</p>	<p>Session #: 16 Session Title: Understanding Secondary Traumatic Stress and the Importance of Professional Well-being Presenter(s): Stephanie McCann Objective 1: Identify symptoms of Secondary Traumatic Stress Objective 2: Discuss levels of secondary trauma exposure in the workplace. Objective 3: Identify mindfulness techniques to reduce symptoms of secondary traumatic stress including mindfulness-based self-care. Objective 4: Describe self-care strategies for professional wellness.</p>
